

# TAG Read

## Handheld RFID Reader

Use TAG Read, RFID reader to start the TAG and/or read out the TAGs temperature log.

Automatic upload to TAG Portal, cloud solution. The reader has a precise GPS for geo locations.

The rugged RFID reader is perfect for harsh environments like warehouses and logistics hubs.

### Wireless communication:

- ❖ WIFI  
Support IEEE 802.11a/b/g/n/ac
- ❖ Bluetooth  
BT4.0 (BLE) class1 transmission distance 10m
- ❖ 3G  
CDMA 1X/EVDO BC0  
GSM 850/900/1800/1900  
WCDMA B1/B2/B5/B8  
TD-SCDMA B34/B39
- ❖ 4G  
FDD-LTE B1/B3/B5/B7  
TD-LTE B38/B39/B40/B41
- ❖ GPS  
GPS+BDS+A+GPS+GLONASS

### Physical parameters:

- ❖ Screen display  
5.5 inch LCD, 1920\*1080 touch screen
- ❖ Camera  
5MP/13MP with automatic focus and light function

### Data acquisition:

- ❖ NFC  
Working frequency: 13.56MHz,  
Reading distance 0-3cm
- ❖ UHF RFID  
Working frequency: 900 MHz or  
856-858 MHz  
Reading distance: no more than 6m

### Environmental characteristics:

- ❖ Drop height, 1,2m composite wood floors, in operation status
- ❖ Working Temp. -10°C to + 50°C

### Specifications:

- ❖ Android 8.1 os
- ❖ CPU: 1.8GHZ,8 core Qualcomm
- ❖ RAM: 4GB

### Product certificate:

- ❖ CE/FCC/ROHS/IP65/MIL-STD-810
